

ADOS-2 Training Opportunity

Clinical Training Using the Autism Diagnostic Observation Schedule-2 (ADOS-2)

Autism and Educational Diagnostics, LLC is now offering training workshops for professionals interested in learning to administer the ADOS-2.

Training Content

Modules 1 – 4 and the Toddler Module of ADOS-2 will be presented with intensive instruction and coding conventions. The instructor will administer two modules with a child, providing opportunity for consensus scoring by participants.

Practitioners will:

- Become familiar with the ADOS-2 as a diagnostic tool
- Learn how to administer and score the ADOS-2
- Practice scoring the ADOS-2 based on a live demonstration
- Learn to interpret and report ADOS-2 results
- Apply results to interventions and IEPs.

About the Trainer

Norman Geller, Ph.D. is an independent ADOS-2 trainer certified and trained by the ADOS-2 authors and the Center for Autism and the Developing Brain (CADB). He has used the ADOS for over 10 years and serves on a transdisciplinary autism assessment team for diagnosis and intervention planning.

Target Audience

Psychologists, Speech Language Pathologists, Educators, Physicians, and Related Professionals
